

## Single Slope Shelter

All car shelters are out of stock until August 2021.

Single slope winter car shelter, 1 size available: 11' x 20' (tempo style) to install against a house or a garage.

Regular price 560.00\$

We do not ship the shelters; they need to be picked up at our factory in Beloeil.

Protect your vehicle against the elements with this shelter. This is the perfect solution to meet your needs for protection and storage during the winter season.

Price: on request

## Description

Protect your vehicle against the elements with this shelter. This is the perfect solution to meet your needs for protection and storage during the winter season.

Removable shelter, to be used as a temporary structure. The single slope shelter can park only one vehicle wide. The white resistant tarp is treated against UV rays, and is waterproof.

NOTE: Accessories such as permanent anchors and pavement protectors are essential to install the winter shelter. Please ensure you select these options, depending on the size of the shelter chosen, before confirming your purchase.

IMPORTANT: Be sure to promptly remove snow or ice on the structure. If you do not, it could result in injury or property damage.

## Characteristic

- Width 10 '6 ".
- Length 20 ".
- Clearance 7 '.
- Rear roof 9 '10 ".
- Arch spacing 4 '.
- Galvanized steel frame 1 3/4 "x 1 1/8" - 16 gauge and 18 (mini oval).
- Fitted white polyethylene fabric
- Welded fabric.
- Waterproof.
- 4 windows.

## Advantages

Designed to temporarily protect car, truck, ATV, boat or garden tools from damage caused by sunlight, rain, snow and winds light to moderate. It also protects against debris items such as leaves, small branches from trees or natural remains. In addition, the shelter has four windows on the outside tarp, not adjacent to the wall of the house.

Note: Please ensure that this product complies with the regulations in your municipality before ordering.
