

Paving Stone Protector

The pavement protectors are an affordable and very useful accessory to add to your installation.

20083	1 1/4	2,99 \$
20082	Mini-Oval	2,99 \$
20084	Maxi-Oval	3,99 \$

Price: on request

Description

The pavement protectors are an affordable and very useful accessory to add to your installation. They prevent the grass or snow from entering the in tubes of the structure and protect the surface where the shelter is installed.

Characteristic

For the majority of Multiple Awnings shelter you will need a size protector of 1 1/4. Single slope shelter, use the mini-oval. For double shelters, use the maxi-oval.

Format of pavement protectors

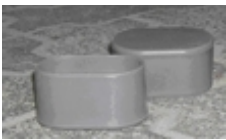

Simple shelter: 1 1/4

Double shelter: max oval

Advantages

They serve to protect your winter shelter but also the ground or floor where it is installed.
