

## Brasilia C Awning

The Brasilia is a retractable awning offering an effective high quality protection against the sun and light rain.

Price: on request

### Description

The Brasilia is a retractable awning offering an effective high quality protection against the sun and

light rain.

Transform your patio into a comfortable, shaded area in seconds and enjoy the summer to its fullest!

## Characteristic

It is made of extruded aluminum and of a high quality waterproof acrylic with a durability of 8 to 10 years. You can choose to operate it manually (crank) or motorized with a remote control. Installation is done either on the wall or under a soffit. To increased efficiency or to create even more privacy, add a frontal solar panel.

Wind sensor available.

Available in various sizes.

## Advantages

It protects against the sun and light rain. It fits all types of lay outs. It opens and closes quickly. Can remain in place throughout the year.

The Brasilia requires very little maintenance.
