

Palma Motorized Pergola

The summum of luxury while at home

Price: on request

Description

Transform your patio into a post card vista with the Palma bioclimatic pergola. With its watertight louvers, adjustable from 0 to 140 degrees and its built-in downspouts, Palma is not only attractive, it also adapts to your needs to offer complete or partial shade and protection against the rain at the touch of a button.

Its quiet and unobtrusive operation, its European design and its all aluminum powder-coated construction ensure your peace of mind. Very durable, the Palma doesn't have a fabric canopy that

needs changing, is maintenance free and doesn't need any special treatment in winter, it can even be equipped with heating louvers in option.

The Palma pergola is very versatile and can be built in a large number of colors and complemented by motorised solar shades, LED lights and sliding glass curtains.

Keep your life simple, treat yourself to the dolce vita.
